WORK EXPERIENCE

The Hut Group

Frontend Engineer July 2024 - Present

• Developed and maintained multi-tenant websites, implementing reusable and adaptable features across various brands.

- Reduced code complexity and improved frontend stability by 20% through performance optimizations and accessibility fixes.
- Implemented theme-based customizations, enhancing brand-specific interfaces and boosting user engagement by 15%.
- Collaborated with cross-functional teams to deliver scalable, user-centric solutions on tight deadlines.

Amdocs

Frontend Engineer April 2022 - June 2024

- Led the development of dynamic, responsive user interfaces in React.js, improving the user experience by 25%.
- Optimized Redux state management, ensuring smooth application performance and reducing loading times by 30%.
- Architected modular React components, enhancing code reusability and reducing development time for new features by 40%.
- Integrated RESTful APIs, ensuring seamless front-end and back-end communication across multiple projects.

Tata Consultancy Services (TCS)

Frontend Engineer

November 2020 - April 2022

- Engineered clean, maintainable, and performant code for responsive web applications, achieving a 95% client satisfaction rate.
- Designed intuitive UIs with seamless REST API integration, streamlining data handling and improving app responsiveness.
- Translated feature requirements into actionable user stories, enhancing project clarity and delivery timelines.

PROJECTS

E-commerce Platform (Self-Service, Retail, and Mobile App)

- Delivered an end-to-end e-commerce solution enabling seamless sales of phones, plans, broadband, and accessories.
- Developed integrated portals for web, retail, and mobile platforms, achieving a 30% increase in user adoption.
- Utilized Cordova for mobile app development and Bootstrap/AEM for UI design, optimizing the customer journey from homepage to payment.

Personal Portfolio Website [2]

- Designed and built a responsive portfolio website using React.js and Tailwind CSS.
- Showcased projects with modern design, detailed descriptions, and intuitive navigation, leading to a 40% increase in recruiter engagement.

Retro Board 🖸

- Developed a collaborative retro board application using Node.js, React.js, and Material UI.
- Enabled real-time updates and enhanced collaboration for team project retrospectives.
